GROCERY GUIDE: Take the guesswork out of the fresh grocery add-ins. Learn more about PowerFuels, SmartCarbs, Vegetables, Extras and Free Foods.

Nutrisystem plans allow you to choose the number of days' worth of Nutrisystem meals you receive each month. Plans that provide less than 7 days' worth of Nutrisystem foods include Flex Meals. Flex Meals and snacks are healthy home- and restaurant-made meals that will replace some of your Nutrisystem meals and snacks with your own grocery food add-ins. Don't worry! We provide guidance to help you learn how to make your own healthy and balanced meals using the suggested grocery food add-ins. These meals are a great way to learn healthy habits and help set you up for long-term success!

This meal plan is designed to include Nutrisystem meals to cover 5 days of your week, with Flex Meals covering the remaining 2 meal and snack occasions. Keep in mind, we recommend spreading your Flex Meals and snacks out throughout the week, rather than eating them all on the same day.
